POLITICAL ADS
MAKE YOU
Grumpy

Don't Get Grumpy – Vote!

SIX REASONS TO SUPPORT COUNCILMEMBER DAN KALB FOR STATE SENATE

We get it — political ads are everywhere. You can't watch TV, scroll online or check your mail without another ad in your face. The big interest group spenders are trying to buy the election for State Senate – for themselves or the candidate who will do their bidding.

Democrat Dan Kalb – aka Super Dan – will go to Sacramento owing no one but you. Here are 6 reasons to support Dan Kalb for State Senate:

1. We Need a Climate Champion! Dan has taken on big polluters — and won. Worked for Sierra Club and Union of Concerned Scientists. Endorsed by Climate Action California and California Environmental Voters.

2. Protect the Integrity of Our Democracy. Dan worked for CA Common Cause and strongly supports clean money for clean elections. No polluters. No insurance PACs. Just democracy. Awarded Best Good Government Politician by *East Bay Express*.

3. Proven Commitment to End Gun Violence. Dan led efforts to get guns off our streets, including writing Oakland's law to ban deadly ghost guns and has increased funding for violence prevention and intervention. Expecting a zero rating from the NRA.

4. Supports Women's Rights and Gender Equality. Dan has always defended a woman's right to choose, and supports LGBTQ equality and equal pay. And he's a long-time supporter and defender of Title IX. Earned a 100% rating from Planned Parenthood Advocates.

5. Experience That Makes the Difference. Dan has over 30 years of policy experience including ten in Sacramento crafting legislation on complex policy. Dan has shown that he knows how to get things done in Sacramento.

6. Community Recognition. Endorsed by 20 current and former state elected officials, more than 60 East Bay local elected officials, and hundreds of community leaders. Recognized as an Affordable Housing Champion.

San Francisco Chronicle

THURSDAY, FEBRUARY 15, 2024

"...Kalb's understanding of complex environmental and energy policy would undoubtedly be an asset as lawmakers develop a roadmap for meeting the state's ambitious climate goals..."
